THE HONEYMOON

Tisn't likely that husband will feed wife actually all their lives, however fond he is on the wedding trip. Likely enough, however, he will pay for the feeding as long as life shall last—he should. Strict vegetarians read no further. Everything in the meat line that's considered first-class found every week-day in this first-class meat store. Lots of husbands and wives to prove it. They don't believe they're overcharged, either.

A COSTLY DROP CURTAIN.

The One Meissonier Didn't Paint For a French Theater.

The enterprising manager of a theater called upon the famous French artist, Jean Louis Ernest Meissonier, on one occasion, says Mr. Robert Kempt in Pencil and Palette, and asked him to paint a drop scene for a certain theater and name his own terms.

"You have seen my pictures, then?" asked Meissonier.

"Oh, yes," exclaimed the manager, "but it is your name I want! It will draw crowds to my theater."

"And how large do you wish this curtain to be?" inquired the artist.

"Ah, well, we will say 15 by 18 meters!"

Meissonier took up a pencil and proceeded to make a calculation. At last he looked up and said with imperturbable gravity:

"I have calculated and find that my pictures are valued at 80,000 francs per meter. Your curtain, therefore, will cost you just 21,600,000 francs. But that is not all. It takes me twelve months to paint twenty-five centimeters of canvas. It will therefore take me just 190 years to finish your curtain. You should have come to me earlier, monsieur. I am too old for the undertaking now. Good morning."

CONQUESTS OF SILENCE.

Men Whose Greatness Was Not Measured by Their Speeches.

Washington never made a speech. In the zenith of his fame he once attempted it, failed and gave it up, confused and abashed. In framing the constitution of the United States the labor was almost wholly performed in committee of the whole, of which George Washington was day after day chairman, and he made but two speeches during the convention, of a very few words each. The convention, however, acknowledged the master spirit, and historians affirm that had it not been for his personal popularity and the thirty words of his speech, pronouncing it the best that could be united upon, the constitution would have been rejected by the people.

Thomas Jefferson never made a speech. He couldn't do it.

Napoleon, whose executive ability is almost without a parallel, said that his difficulty was in finding men of deeds rather than words. When asked how he maintained his influence over his superiors in age and experience when commander in chief of an army in Italy he said, "By reserve." The greatness of a man is not measured by the length of his speeches and their number.

LIQUID LITIGATION.

The Trial by Ordeal That Finds a Place In Perak.

In Perak lawyers find no business, for a modified form of trial by ordeal decides all disputes. In place of the legal practitioner the pleader is a native boy who is assigned to one or the other of the sides and is given a bamboo tube in which is sealed the pleading of the person or party whom he represents.

When all is ready two stakes are driven into the bed of a stream, and by aid of a bamboo pole the heads of the two boys are submerged at the same time.

By grasping the stakes they are enabled to remain under water for quite awhile after their natural inclination would bring them to the surface, but at last one of them gives in and, releasing his hold of the stake, comes to the air.

He is immediately seized, and the tube he holds is cast aside. The other lad is led ashore, his tube opened, and the document contained therein stands as the decision in the case.—New York Herald.

The Dhebar Lake.

A British government engineer living in Bombay asserts that India has the largest artificial fresh water reservoir in the world. He says that in the native state of Udaipur, in Rajputana, some thirty miles south of the city of Udaipur, is the great Jaisamand, the Dhebar lake. The dam of this lake was built some 200 years ago by the Maharana Jai Singh. It covers an area of between twenty-one and twenty-five square miles. Its depth at the dam is ninety feet, and its capacity is estimated at 153,000,000,000 gallons.

Those Beardless Angels.

The Right Rev. Richard H. Wilmer, late bishop of Alabama, was remarkable at once for his piety and his humor. When some one asked him why it was that the pictures and figures of men angels as well as female angels were represented without beards the bishop replied promptly that it seemed to be easy enough to make angels out of women, but that men could only get into heaven by a "close shave."—Richmond Times-Dispatch.

FROM HEAD TO FOOT

you feel the good that's done by Doctor Pierce's Golden Medical Discovery. It cleanses, regulates and invigorates Stomach, Liver and Bowels and so purifies the blood. And through the blood, it cleanses, repairs, and invigorates the whole system.

In recovering from "grippe," or in convalescence from pneumonia, fevers, or other exhausting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It rouses every organ into natural action, promotes all the bodily functions, and restores health and vigor.

For every disease that comes from foul or Weak Stomach, a torpid Liver or impure Blood, Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scalp, or Scrofulous affections, the "Discovery" is a sovereign remedy. Don't be hypnotized, wheedled, or over persuaded into accepting a substitute only that some selfish medicine seller may make a greater profit on the inferior article. The "Discovery" has a great record of nearly forty years with thousands of cures behind it.

Dear Sir—Several years ago my blood became impoverished and I became run down in health. I had no appetite, could not sleep, and was practically unfitted for work. Suffered from innumerable boils and was in bad shape. Dr. Pierce's Golden Medical Discovery relieved me of my wretched condition. The medicine built up my system and restored me to a normal condition of health. I can speak most highly also, of Dr. Pierce's Favorite Prescription, as it has been used in my family for years in cases of female trouble.

TRAFALGAR.

The Swiftness of Action of This Great Naval Battle.

The world will see other sea fights but never one like this, so close, so swift and with so much in it of the personal element. And what may be called the pace of the battle, the swiftness with which incident follows incident, is almost without a parallel in the history of war. The first gun was fired at 12:15; at 12:22, or only seven minutes after the French guns opened on him, Collingwood, with the British ships nearest to him, was through the enemy's line.

Only one brief minute later, or at 12:23 by the log of the Euryalus, Nelson is in the fight, and is pouring his first dreadful broadside into the stern of Villeneuve's flagship. Two minutes later the French and Spanish topmasts begin to fall. At 1:32, or sixty-seven minutes after the first gun was fired, Blackwood reports "the center and rear of enemy's line to be hard pressed in action." The fate of the battle is practically settled. Already some of the enemy's ships have struck. The swift moments run on, and the pulses of the great fight keep time with them. The advantage is not all on one side.

At 2:36, for example, or less than two hours from the moment when, a shape of majestic pride, the Royal Sovereign moved into the zone of the enemy's fire, she lies a mastless and helpless hulk. She has done her work, but she has paid a terrible price for it. There is at this moment a flutter of flags on the masthead of the Victory, for Nelson has a great captain's watchful vision, and a frigate—it is the Euryalus—comes down with every inch of canvas set, groping her way through the smoke, to take the battered hull of the Royal Sovereign in tow, so that her broadsides—the mighty ship can still fight, though she cannot sail—bear upon the enemy's ships within her reach.

This is not a battle spread through days. It is compressed almost into minutes. The first shot was fired at 12:15; before 3 o'clock flag after flag is going down; a great fleet is crumbling into ruin. By 5:30 o'clock all is over.—Cornhill Magazine.

FINGERS AND FORKS.

Never use a fork when taking a piece of bread.

Avoid using a spoon for anything that is not liquid.

Pastry should be eaten with a fork also ice cream where the proper forks are served.

It is permissible to eat celery, corn, asparagus, water cress and undressed salad with the fingers.

Olives should be lifted from the dish with the olive fork or spoon, but should be eaten from the fingers.

Lemon is often served with fish and pancakes. The lemon should be taken in the fingers and squeezed upon the viands.

If cut sugar is served and there are no sugar tongs in the bowl, lift the pieces out as delicately as possible with the tips of the fingers.—New York Press.

A Queer Family.

Little Charlie was very fond of watching his mother dress. One day when she was brushing her hair he exclaimed, "Mamma, why does your hair snap so?" "Because there is so much electricity in it," she replied. Charlie sat looking at her for a few moments very thoughtfully and then he could contain himself no longer, when he burst out with: "What a queer family we must be! Grandma has gas in her stomach and you have electricity in your hair."

Less Than Cost.

"But," protested the broker who had advertised for a confidential clerk, "you want too much salary." "I've had a great deal of experience in the brokerage business," urged the applicant. "But you ask too much for it." "My dear sir, I assure you I'm offering it to you for much less than it cost me."—Philadelphia Ledger.

Southern Pacific Surveyors Get Busy—Road Repairing Completed

Mr. and Mrs. Christian Reis and their son, Fred Reis, jr., have closed their home and gone to San Francisco for the winter. At present they are staying at the Hotel Majestic but are looking for a suitable residence.

Supervisor MacBain has completed the work of repairing the County road from Duff and Doyle's to the San Francisquito creek. It is without doubt the best thoroughfare on the Peninsula. He is engaged in continuing the repairing of the road through town to the crossing beyond the residence of Senator Felton. Crushed rock from E. B. & A. L. Stone Company's quarry is used. It is the very best material and makes excellent roads. Mr. MacBain has just completed gravelling three miles of road at Portola. As his funds permit he intends to continue the good work of constructing permanent thoroughfares in his district. Mr. MacBain is having the gutters in town repaired for the winter storms.

The outhern Pacific Company has a number of surveyors engaged in surveying for a single track railroad from the Dumbarton bridge along the marsh to South San Francisco to connect with the four track system. There will be fifteen miles of track to lay and work will be pushed as rapidly as possible. The Company realizes that it could not get all its overland freght trains over the double track system from Redwood City to San Francisco as it would in all likelihood congest the passage of the passenger business. It is likely that all the freight will go over the single track while the passenger traffic will be handled over the double track from Redwood City.

A valuable dog owned by J. B. Coryell was run over and killed by the north bound train Tuesday evening. The canine was a ribbon winner, costing his admiring owner $100.

It is definitely known that Hoag & Lansdale have about completed a deal with a number of Stanford professors whereby the latter have secured two blocks in Stanford Park along the San Francisquito creek. O'Keefe felt that he was going to have a hemorhage and asked his companion for salt, but before he could secure it Brown fell and passed away in a few minutes. He suffered a severe hemorhage of the lungs. The young man wass a native of San Francisco aged 24 years and had been engaged at St. Patrick's seminary since last April. His brother, Ed Brown, is the foreman carpenter at that institution Mr. Brown was an affable young man, popular among his associates and well liked by his fellow workmen. He was a member of the Carpenters Union of this place. The funeral and burial was under its auspices Thursday. The funeral took place from the church of the Nativity. Interment was in Holy Cross Cemetery, Colma.

Carney Brothers, railroad grade contractors, with headquarters here, completed the Dumbarton cut-off Wednesday. The cut--off extends from Niles to Redwood. Everything is ready for the ties and rails. Carney Brothers will close down for the winter. They will store their outfit in Mayfield, but their horses they will ship to Southern California. They have a force of about 100 men, all of whom will be thrown out of work. There is a report circulated that an extension from the Los Gatos cut off will be begun at once to the rear entrance to the University, but Mr. Carney says this is not the case.

Public Administrator Dr. H. G. Plymire, through his attorney, James T. O'Keefe, has applied in the superior court of this county for letters of administration upon the estate of Johanna Synan who died on Tuesday, December 3rd at the O'Connor Sanitarium at San Jose. It is thought she left several thousand dollars in some one of the San Francisco savings banks. She confided in no one and very little is known of her affairs.

Chew Gun You and Miss Sewey Tow were married according to Oriental rites at the residence of Quong Fong Lee Thursday evening. The ceremony was highly interesting and was witnessed by numerous white people. The groom and about 100 of his friends were waiting the arrival of the bride from San Francisco and promptly at the time set she drove up in an automobile and was assisted from the car by the groom who looked resplendent in a rich silk garb. A Chinese priest was in waiting and without further ado tied the nuptial knot Then there was a great explosion of fire crackers after the ceremony. The bride was lead away and was not permitted to see anyone until the next day. An open house will be kept for four days during which time all Chinese are welcome to partake of the good things provided by Chew Gun You. The expenses of the wedding is upwards of $2500. Quong Fong Lee, a well to do merchant, and uncle of the groom is soon to sail for his native land and during his absence his nephew will be in charge of his store. Medical Society Elects Officers

The San Mateo Medical society held an important meeting in this city recently at which Dr. A. Miles Taylor was elected president and Dr. Siebert of San Mateo secretary. The meeting was held in the office of Dr. Barret and after adjournment the Redwood City doctors entertained the society at a banquet at Bernasque's cafe. The society has appointed a committee to look into the feasbility of establishing a large hospital at some point in the County. All members of the society will be stockholders and contribute to the hospital instruments and money A report will be made at the next meeting. The physicians feel the need of such an institution in the County. Those who were present at the banquet were Doctors Barret, Ross, Taylor and McCracken of Redwood City, Doctors Morrison, Siebert, McLenehan, Chidester, Aiken and Baker of San Mateo, Doctor A. M. Gardner of Belmont and Doctors H. G. Plymire and Bradley Plymire of South San Francisco.

To Hold Important Meeting

The Peninsula Promotion League will hold an important meeting in Redwood City within the next two weeks. W. J. Martin of South San Francisco is president and C. N. Kirkbride of San Mateo secretary. The league will pay particular attention to the matter of commutation rates. A petition signed by all the commuters of the Peninsula asking the Southern Pacific Company to reduce its rates. A monthly ticket may be purchased from San Francisco to North Berkeley for $3 while from San Mateo to the city it is $6 and yet the difference in the distance is only four miles. The league believes that such discrimination should not exsist and will do all it can to have rates reduced all along the line from San Jose to Sunnyvale. The league takes in all the territory between South City and Sunnyvale including these two towns.

S. P. in Good Shape

Julius Kruttschnitt, director of the Harriman lines arrived in San Francisco Wednesday and in speaking of the growth of the Peninsula said:—

"The Southern Pacific is in good shape. All accumulations have been cleared up. There is no freight on the side tracks, and everything is moving forward regularly. One thing more than anything else has astonished me on this trip, and that is the development of the peninsula. There seems to be a continuation of villages all the way from South City to San Jose, and this building of small towns adjacent to San Francisco shows that the city must be prosperous.

Coburn Acquitted

Lorin Coburn who was charged with embezzlement was found not guilty by a jury in the superior court Wednesday. Many witnesses were examined. From the testimony it would seem that M. E. Glover, the complaining witness, rented the Sunnyside ranch from Coburn, near Pescadero and was to give as retnal one third of thecrop. It was harvested in Octoer 1905, and 1200 sacks of black oats were taken from the field by the landlord and stored in his warehouse at Pigeon Point. Coburn claimed the right to do this under the terms of the lease which gave him power to hold a portion or all the crop until all advances were settled for. Mrs. Glover held that there were no advances and therefore charged him with embezzlement. In as much as the grain was not disposed of and still remained in the warehouse the jury held that no crime was committed and thought it was a matter for the civil court to determine. Judge Stanton L. Carter of Fresno and E. F. Fitzpatrick of this city appeared for Coburn while District Attorney Bullock represented the people.

Committee Meet

Four numbers of the executive committee of the Greater San Francisco Committee met Thursday in the rooms of the California Promotion Committee, San Francisco, and decided to call a meeting of the general committee within a week. At this meeting plans for carrying forward the work of investigating the problems of merging the cities around the bay will be proposed. The members present Thursday were Secretary Edwards, A. H. Elliott, H. C. Cutting and J. H. Cloeman.

Death of Clara Crowe

The news of the death of Clara the next youngest daughter of Mr. and Mrs. James Crowe came as a shock to the entire community last Tuesday morning. Few of the friends of the young lady knew of her illness and when her death became known the sympathy of all went out to the bereaved family. Miss Crowe had been ill but a few days but the cold which she had contracted a few weeks ago got such a hold upon her that it could not be shaken off and pneumoniadeveloping, the end came quickly.

The deceased was born in this city 28 years and six months ago. She grew to womanhood here, going through the local schools. After graduating from the Grammar School she turned her attention to music and gained a great degree of skill on the violin. She traveled considerably and where ever she was she took pains to perfect herself in her art, and during recent years when at home, she delighted Redwood audiences with selections and was always ready to help at any entertainments.

The funeral took place from her late residence Thursday morning. A short service was held at the house and the remains were conveyed to their last resting place at Cypress Lawn Cemetery by the 12:25 train. At the chapel there Rev. W. B. Clark, pastor of the local Episcopal church read the impressive services of his church. A last opportunity was given the many friends to gaze once more upon the face of the departed and there were no dry eyes present when the grief stricken parents looked for the last time at the one whom they were laying to rest.

The interment took place on one of the sloping hillsides and there with the birds singing about her and the beautiful flowers blosoming they left her. The floral offerings were of the most beautiful and were in such profusion that they entirely covered the mound which marks her resting place.

Besides her parents she leaves to mourn her four sisters, Mrs. Belle Wentworth of Oakland, Mrs. Max Brizard of San Francisco, and Miss Alice and Kittie Crowe and a brother, William Crowe, all of this city.

Damage Suit Still On

The case of Catherine Tosi against the Southern Pacific Company for damages was begun in the superior court Thursday. Constantino Tosi was killed by a Southern Pacific train at San Pedro avenue, Colma, on August 16, 1906, and his wife, Catherine, is suing the corporation for $10,000 damages.

Ascore of witnesses were examined by tpaintiff defendants. Some evidence went to show the negligence of the company in not giving warning of the approcahing train that killed Tosi. However much of the testimony was conflicting. Harry E. Styles and Ray P. Saffold appeared for plaintiff and Frank J. McGowan and E. F. Fitzpatrick for the company.

All the evidence was in last evening and the case will be argued this morning. A verdict will most likely be rendered this afternoon.

COUNTY STATISTICS

Harold Heiner Submits His Report

IT'S LENGTHY AND COMPLETE

Document Shows Vast Increase Over the One of Preceding Year

H. O. Heiner has completed his statistical report upon which he has been working for some weeks. It is lengthy and complete in every detail. The Supervisors will accept it on next Monday, and then it will be forwarded to the State Agricultural Society.

The report shows that there are 750 miles of public roads in the county, upon which the sum of $87,639.92 was expended during the year. The sum of $10,000 was spent on bridges.

The grain produced was 10,363 tons, valued at $382,000. There were 21,550 tons of hay, worth $323,000.

There are 72,400 fruit trees in the county, 183,000 grape vines, and 165 acres of berries. The fruit and vegetables raised in the county is valued at $415,996. There were 50,000 gallons of wine produced.

The report shows a vast increase over the one of last year.

Woodside Chips

Mrs. Albert Broecker of Oakland is visiting at the home of her mother, Mrs. Peter Mathiesen, for a few days.

The rain during the week will be of great benefit to the valley, enabling farmers to seed their lands and makirg an abundance of grass for pasturage.

George McArthur and Oscar Kettlewell spent Sunday last at the homes of their respective relatives.

The double team of W. A. Hoope took fright Sunday at Williamson's, where they were tied, and broke loose. They started for home, but came in contact with Dougherty's gate, when they parted from the rig. Luckily, no one was hurt, and the damage will not amount to much.

Fred Richards, who has been employed as clerk by R. O. Tripp for the last two years, has resigned his position and will seek employment in San Francisco. Percy Walker has taken his place in the store.

It is about time for the young folks to give a dance. The dances of late have not been very encouraging and no one seems to want to take chances.

Bradford Leavitt, the well-known minister of San Francisco, has purchased two plats of land at Woodside, and is contemplating erecting a handsome home here. The sale was made through the Redwood City Realty Company.

Resolutions of Condolence

To the Chiefs of Metamora Tribe No. 24, Improved Order of Red Men:

Your special committee on memorial to our late brother, Sylvester Walker, Past Sachem, respectfully present the following;

The swift arrow of the dark hunter has again found lodgement in the breast of one of our beloved chiefs and we mourn his loss most deeply, he having been a charter member of the Tribe and always a loyal, earnest and active Red Man.

Brother Sylvester Walker was born in the reservation of New York, on the fifth sun of Plant Moon, G. S. D. 336,trailed to the reservation of California in G. S. D. 365, and to these hunting grounds in 377, common era 1868, affiliating with our Tribe in that great sun.

He was a good neighbor, a faithful friend, a genial companion, with a kindly disposition and a pleasant word for, all, with these thoughts in our minds and so deeply impressed upon our hearts we feel assured that his spirit has been born safely across the dark river and is now with Kishe Manitou "where the council fire of love and glory burneth forever."

"There is no death; the stars go down,
To rise upon some fairer shore:
And right in Heaven's jeweled crown
They shine forever more."

As a token of the esteem in which the departed brother was held by the members of this Tribe we recommend that this tribute to his memory be duly spread upon the records and that the Council House be darkened for the space of thirty suns.

Done in Freedom, Friend and Charity.

Geo. West, J. J. Rodgers, Geo. W. Winter, Committee.

LIFE IN THE MIDDLE AGES.

The Way In Sickness and Old Age Was Pitiable Indeed.

Concerning the life of poor people during the middle ages a writer says: "In those bygone days of feudal rule the dwellers in the country were almost invariably serfs, bound to the estate on which they were born and under the absolute rule of the owner. They were possibly better fed than at the present day, for butter, cheese and eggs were plentiful, and the fertile soil of Italy supplied them with abundance of fruit and vegetables. The poor man held his plot of ground by the tenure of so many days in the year of service to his lord. But in sickness or old age his case was very pitiable, and we have a curious proof of this in a letter written in 1465 by the mother of Filippo Struzzi, at Florence. She is speaking of some old people on her estate in the country: 'Piero and Monna Cilia are both alive and infirm. I have overflowed the field for next year, and, as I must put it in order, those two old people, if they do not die, must go and beg. Heaven will provide.' This is no passing thought of the good lady, who was pious and highly esteemed, a friend of the Medici, but it is a firm resolution in her own mind. A few months later she writes to her son: 'Piero is still alive, so he must put up with it and go away and beg. It would be best, of course, if heaven will take him.' Apparently a merciful Providence had already provided for Monna Cilia!"

MARKS OF LONGEVITY.

Physical Indications That You May Study For Yourself.

Every person carries about with him the physical indications of his longevity. A long lived person may be distinguished from a short lived person at sight. In many instances a physician may look at the hand of a patient and tell whether he will live or die.

The primary conditions of longevity are that the heart, lungs and digestive organs as well as the brain should be large. If these organs are large the trunk will be long and the limbs comparatively short. The person will appear tall in sitting and short in standing. The hand will have a long and somewhat heavy palm and short fingers. The brain will be deeply seated, as shown by the orifice of the ear being low. The blue hazel or brown hazel eye, as showing an intermission of temperament, is a favorable indication. The nostrils being large, open and free indicates large lungs. A pinched and half closed nostril indicates small or weak lungs.

These are general points of distinction from those of short lived tendencies, but of course subject to the usual individual exceptions. Still, it is well acknowledged that the characteristics noted are expressions of inherent potentiality, which have been proved on the basis of abundant statistical evidence.—Medical Record.

An Editor's Toast.

At an editorial convention one of the country editors offered the following toast:

"To save an editor from starvation take his newspaper and pay him for it promptly. To save him from bankruptcy advertise in his paper liberally. To save him from despair send him every item of news of which you can get hold. To save him from profanity write your correspondence plainly on one side of the sheet and send it in as early as possible. To save him from mistakes bury him. Dead people are the only ones that never make mistakes. Newspaper readers would do well to remember that there are no perfect people, editors or readers."

Odd Idea of Eclipses.

The Nanpes, a tribe in South America, have an original explanation of the cause of eclipses. It is a quarrel, they declare, between the sun and the moon, and to dissuade these combatants from fighting their duel to the death they shout their very loudest till returning light is proof to them that the heavenly bodies, paying heed to their anger, have thought better of their intention.

A Broad Hint.

They were seated in the parlor conversing on the uncertainty of life. She—The future is a vast, unfathomable mystery to us, isn't it? He—Yes; all we know is that we have got to go some time. Voice From the Library—it would suit the convenience of this household if you'd make it a little sooner than that.

No Faith In Doctors.

"Why do you select a family doctor who lives so far from your home?"

"If any of my family are taken sick I want them to have a chance to recover before the doctor gets there."—Cleveland Plain Dealer.
